

Learning Objectives

- Integration of Quality Improvement / Performance Management techniques into local health department operations to position for accreditation.
- Enhance the awareness of current initiatives occurring within the State in preparation of accreditation.
- Collaborative learning style – Participants will have the opportunity to learn from their peers about current projects happening around the State.
- HIPAA – Participants will have the opportunity to receive a refresher course on HIPAA laws and how they apply to local health departments. This course will be a four-hour training presented by the same trainer that developed the initial HIPAA handbook and training given to health departments previously.
