### Q3 What are the barriers to adopting FPHS?

1	Time, money, and staff	9/29/2019 2:50 PM
2	Time for commitment, funding	9/27/2019 1:37 PM
3	In our specific case the barriers are the requirements of additional space and staffing.	9/25/2019 12:09 PM
4	Not enough staff, not enough time, and limited understanding on what all needs done to adopt FPHS.	9/24/2019 11:07 AM

6	We are an FQHC providing services for the County.	9/23/2019 5:46 PM
7	We need to offset costs which fees for services do help this. Very small agency.	9/23/2019 4:49 PM
8	Resources-staff, dollars, time	9/23/2019 3:51 PM
9	We are already sharing services with neighboring counties and each county is so unique in it's community needs that providing the same services across each county may not be the best practice for each individual county.	9/23/2019 2:21 PM
10	Relevance of doing so.	9/23/2019 12:38 PM
11	Training for staff	9/23/2019 9:16 AM
12	Lack of interest from area partners- I will need to work with them to complete some functions- but they are not seeing it as high a priority as I do. Or as a better answer- there is no one requiring this- or incentivizing it so there is no pressure to get it done.	9/20/2019 2:11 PM
13	Resistance to change	9/19/2019 1:31 PM
14	We do not provide environmental health services nor have an understanding of it Too much is required under what Mch seems foundational Many of these items are too specific for a small agency to assure are done	9/19/2019 11:56 AM

19	In our county, I don't see any barriers to adopting FPHS.	9/19/2019 10:11 AM

31	time, money, commissioner and citizen by in	9/19/2019 8:04 AM
32	Not large enough of a health department to have all environmental services. We are a part of LEPA for our area but they mainly deal with water testing. This leaves the health department struggling to find services or assistance with environmental issues.	9/19/2019 7:43 AM

17	Nothing	9/19/2019 10:11 AM
18	Communication, Policy Development & Support can be done on a State or Regional basis. No personnel(expertise) or funding to do it adequately locally in a rural/frontier county. Too broad for any one agency to handle on their own if their population is less than 50,000.	9/19/2019 9:39 AM

23	more community understanding on the depth and abilities of health departments	9/19/2019 8:48 AM
24	within SCHD? no fear. If need to regionalize due to smaller not having the resources, then funding.	9/19/2019 8:42 AM
25	Failure	9/19/2019 8:22 AM
26	Not afraid of it, just not how local community wants tax dollars spent and not revenue producing.	9/19/2019 8:17 AM
27	?	9/19/2019 8:08 AM
28	nothing	9/19/2019 8:04 AM
