Non-Households: How to Complete Monitoring

MONITORING GUIDED SCRIPT

3. Assuming the contact outreach case answers, say “Hi, this is [your name] and I am calling from the Kansas Department of Health and Environment.”

4. If the contact outreach case is 18 or older, say “Can I confirm that I am speaking with [contact outreach case name]?” If the contact outreach case is 17 or younger, say “Can I confirm that I am speaking with the parent/guardian of [contact outreach case name]?” If you are not speaking with the parent or guardian, ask to speak with that person.

5. Say, “I am calling to follow up with you to make sure that you are still feeling healthy. This call should be brief.”

6. Click the Yes radio button, assuming the contact outreach case has time to speak with you.

   Note: If the person does not have time to speak with you, select the No radio button and follow the steps on page 57 to set a follow up time to call back.

7. Click the Next button.
Non-Households: How to Complete Monitoring

MONITORING GUIDED SCRIPT

8. Ask “Have you seen your healthcare provider since we last spoke?” and indicate the person’s response: Yes, No, or Unknown.

   Ask “Have you been tested since we last spoke?” and indicate the person’s response: Yes, No, or Unknown.

   If the person has been tested, then the subsequent question will appear on the screen. Ask “Was the result positive?” and indicate the person’s response: Yes, No, or Unknown.

9. Click the Next button. The guided flow will show different screens based on the information provided. If:
   - The person has not been tested, or if the person was tested and the results were Negative – Continue ahead to step 12.
   - The person was tested, and the results were Positive – Continue to step 10 to close the contact outreach case.

10. Say, “Thank you for your time. You will be contacted by the Local Health Department or a case investigator.”

11. Click Finish. Skip ahead to step 23 to log a call.
Non-Households: How to Complete Monitoring

MONITORING GUIDED SCRIPT

12. Say, “Now I would like to ask whether you developed the following symptoms.” Complete all the fields in the Symptom Check section. Continue scrolling down to view and answer all fields.

⚠️ Note: If symptoms are consistent with COVID-19, case information is passed to EpiTrax for a case investigator to follow up. The record will not be automatically closed in Salesforce. If the contact outreach case tests negative, monitoring will need to continue by a Contact Tracer in Salesforce. Click here to find the list of COVID-19 symptoms.

13. If the contact outreach case is experiencing or has experienced symptoms, enter the Symptoms Start Date and Symptoms Stop Date (if applicable).

⚠️ Note: If the contact outreach case is experiencing a fever, you will need to note their high temperature under the If yes, How high has your temperature been? field.

14. Click the Next button.
The guided flow will show different screens based on the information provided. If:

- **No symptoms or not consistent with COVID-19** – Skip ahead to steps 17.
- **Symptoms are consistent with COVID-19** – Continue to the next step.

15. Say, “Since you may be experiencing symptoms of COVID-19, I am going to contact your local health department and let them know you are sick. Someone from the local health department will be calling you to help you arrange to be tested. If you need medical care please call your healthcare provider and if you need urgent care, please go to the emergency room. If you seek medical care, please call your provider or facility before and let them know you have been exposed to COVID-19.”

16. Click the **Next** button.

---

**MONITORING GUIDED SCRIPT**

Since you may be experiencing symptoms of COVID-19, I am going to contact your local health department and let them know you are sick. Someone from the local health department will be calling you to help you arrange to be tested. If you need medical care please call your healthcare provider and if you need urgent care, please go to the emergency room. If you seek medical care, please call your provider or facility before and let them know you have been exposed to COVID-19.
Non-Households: How to Complete Monitoring

MONITORING GUIDED SCRIPT

17. Say, “Over the next 2-3 weeks do you have what you need to quarantine successfully?”

Note: Let the contact outreach case elaborate, do not read the list of resources under Needs assistance with.

Indicate Yes or No.
  • If the contact outreach case says no, skip to step 19.
  • If the contact outreach case says yes, say, “Your Local Health Department may be able to connect you with resources. They will contact you if they are able to fulfill any of these needs.”

18. Based on what the contact outreach case has mentioned, select the resource(s).

Note: To select multiple resources, hold down the Ctrl key while clicking each resource.

19. Ask, “Do you still prefer that I reach out to you by phone or would you prefer to be contacted by text?”

Note: If text is selected, any future monitoring assessments will occur via automatic text messages directly sent to the contact outreach case. A mobile phone number listed on the contact outreach case record is required.

20. Click the Next button.
Non-Households: How to Complete Monitoring

MONITORING GUIDED SCRIPT

21. The guided script will show different screens based on the information provided. Read the End of Interview script.

If the person does not have symptoms consistent with COVID-19, say,

“That is all the questions that I have for you today. You will be contacted again to make sure you are well and to confirm your last day of quarantine. At this time, your last day of quarantine will be [quarantine end date].”

If a date does not appear indicating the end of their quarantine, the contact outreach case has ongoing exposure to a positive case (i.e., they live in the same household as a positive case).

Say, “Your exposure is ongoing, and we will let you know when your quarantine period will end. If you develop symptoms before then or are exposed to COVID-19 again, your time at home may be extended. You should still be staying home and away from other people in your home. If you become sick before I have called you back, please call 1-785-542-6625, [9 and your agent extension] and leave a voicemail. You may also call your local health department or healthcare provider. Thank you for your time today!”

If the person does have symptoms consistent with COVID-19, say,

“Thank you for your time. Please continue to remain at home until you are contacted by the Local Health Department or a case investigator.”

Note: If symptoms are consistent with COVID-19, case information is passed to EpiTrax for a case investigator to follow up. The record will not be automatically closed in Salesforce. If the contact outreach case tests negative, monitoring will need to continue by a Contact Tracer in Salesforce. Click here to find the list of COVID-19 symptoms.

22. Click the Finish button.
