

County Roadshow Feedback

Through KDHE's portion of the Public Health Infrastructure Grant (PHIG) aka Workforce Development Grant, a series of events are being planned for the state (two per region for a total of 12). You may recall brainstorming ideas when we were preparing for writing the grant in Summer 2022. One high priority was to educate county commissioners/boards of health about public health. This series of events is designed to address this priority by increasing awareness of the importance of public health and the role of public health in Kansas counties by targeting county commissioners and any other local officials you wish to include. We need your feedback! What information should be included in these events? Where should they be held? Have the needs of LHDs changed in the last two years?

Your feedback is critical for the development and execution of these events. The survey should take five minutes or less to complete. You will be contacted regarding the events in your region and asked to help coordinate if you wish. Please respond by March 29 at noon. If you would like to assist or know someone who would like to help coordinate the events in your region please include this information in your response to question #14. We appreciate your feedback to make this County Roadshow successful. Thank you in advance for your input!

1. What region is your health department located in?

- Northeast
- Northwest
- North Central
- Southeast
- Southwest
- South Central

2. How many county commissioners do you have in your county?

- 3
- 5
- Other (please specify)

3. There isn't time to cover everything during these sessions we would like our county commissioners to know. **Select up to five** of the topics below that are the highest priority for your health department.

- Value of public health (to include how public health related-decisions impact all county citizens and the breadth of what it includes (e.g. not health care for low income people))
- Role of county commissioners/boards of health
- Statutory authority of health officers
- Community visioning (including aligning public health with county goals, health in all policies, connection between public health and quality of life, addressing social determinants of health)
- Public health funding (to include how focus on public health saves the county money, public health funding/prevention funding/long term investing, understanding LHD budgets (including how LHD budgets are a mix of county funding/grants/service revenue, etc.), and leveraging grant funding effectively)
- Legislative updates (to include impact of new laws passed)
- How county commissioners can be advocates for public health
- Helping commissioners understand how their priorities are connected to public health
- How to involve county department heads in the health of the community
- Shared services
- Collaborative decision-making processes
- KDHE's leadership discussing KDHE's role/clarifying state vs. local roles/importance of relationship between KDHE and commissioners
- Interactively attain feedback from them about their wants, needs
- Public health law and other legal training

4. Do you know of a great presenter for any of the topics you prioritized? If so, please include the topic(s), presenter name(s) and contact information here.
